

**OVERVIEW OF WHAT EXHIBITORS GET****DRAYAGE**

Also known as “materials handling,” drayage is the labor to receive freight during move-in, delivering it to your booth, removing empty containers, storing and returning them after the show, and loading materials for outbound shipping. Each booth is allotted a certain amount of complimentary drayage based on the size of your booth and calculated by the total weight of your shipments. Please refer to your contract for the Chicago Men’s Wear Collective for freight/drayage charges.

**BOOTH EQUIPMENT**

Exhibit space includes a grey carpet, a 120 volt, a 150 watt duplex electrical outlet, and a 1’x4’ fluorescent ceiling fixture. Each exhibitor receives one wastebasket and the Basic Equipment Package as detailed in the exhibitor contract.

**BOOTH CLEANING**

MMPI ensures that all booths will be vacuumed prior to the show at no charge.

**WIRELESS INTERNET ACCESS**

Available through Boingo Wireless for a daily charge, wireless Internet access is available throughout the show floor for the convenience of exhibitors.

**BOOTH IDENTIFICATION SIGN**

All exhibitor spaces will be identified with a clean, simple booth sign that includes company name and booth number. As necessary, multiple signs will be available for large spaces to help attendees navigate the show floor.
